

Medication Trolleys

“For easy to use and secure storage of medication.”

Designed specifically for the care home industry, these trolleys provide staff with a completely secure medication storage system that’s really easy to use.

Available in three different sizes, all models can travel through minimum door widths. Easyglide castors also enable each unit to travel freely from room to room during medication rounds.

Our trolleys are available with different internal configurations so you can pick the best one for your home based on whether you are using SureMed by Omnicell adherence packs or original pack dispensing.

There is even more storage space in the wipe-clean door pockets for bottles, jars and tubs. The units also feature fully lockable doors and a wall clamp for extra security.

All trolleys are fitted with Secure Euro Profile Locks.

Other key features include:

- Integral cabinet shelves
- Large work surface
- Flip trays
- Adjustable door bins.
