

# Omnicell® VBM 200F

Automation for SureMed® adherence cards

The only automated pharmacy solution that efficiently and accurately fills and checks SureMed® adherence cards. Our new filling machine ensures pharmacies have the competitive advantage to easily scale their business to improve adherence and patient outcomes today.

## Benefits for your business and patients

- improved accuracy and reduced checking time
- ability to track and trace each medication packed
- identifies each drug packed
- adherence cards support patients to live better for longer - improving health outcomes
- small-footprint, ergonomic design that fits through a standard doorway
- ease of access for cleaning and maintenance
- extremely intuitive and easy-to-use interface

Compatible  
with most UK  
pharmacy  
interfaces

## Increase your pharmacy's revenue and decrease your expenses

- free up staff time and reduce your operating costs
- process 35-40 sealed and audited cards per hour
- assemble more packs with less resource
- supports hub and spoke model to improve efficiency and reduce costs

# Omnice<sup>®</sup> VBM 200F

Automation for SureMed<sup>®</sup> adherence cards

## SureMed<sup>®</sup> by Omnicell multi-medication adherence cards

Our new filling machine uses our SureMed<sup>®</sup> Class B certified, weekly pill packs which are designed to improve patient adherence by clearly organising and labelling multiple medications. Using the packs and the filling machine offers our customers and their patients numerous benefits:

- potential for drug and dose information to be printed on the back of each individual blister
- consolidated label printed on the inside cover of each card, including drug images
- potential to include individual pharmacy branding to the front of the card

Consolidated label with **full colour drug images** and dosage instructions

Potential to include **drug information on blister lidding**

**Easy-to-understand,** clearly marked day-of-the-week and time passes

*Class B is a standard of repackaging solid oral medication into a container. The standard assures a dependable barrier against moisture once the container is properly sealed.*
